The Big Win: Our Cyber Security Awards Victory

The Cyber Security Awards was held on the 16th November and after being shortlisted, Waterstons UK took home the big win. Keep reading to get the scoop.

The annual Cyber Security Awards held in London rewards excellence and innovation in Cyber Security and our team weren't lucky to be shortlisted, they deserved to be shortlisted. Their hard work, dedication and commitment keep their clients safe and secure.

All that passion culminated in the team taking home one of the biggest wins of the evening; *Best Cyber Security Company over 150 people*.

Stew, our Associate Director for Cyber said: "To be shortlisted amongst some of the biggest and best companies in the UK was an honour in itself, but to win was just fantastic.

"We work hard to make sure our clients are safe and secure online with everything from cyber strategy and accreditations, to training and proactive monitoring, so making sure we're staying on top of the ever-evolving risks and putting measures in place to prevent security incidents is vital.

"Aligning ourselves with other industry experts such as the Business Resilience Centres throughout the UK, and supporting the national cyber protect network through the Metropolitan Police means we're able to be part of the wider cyber security conversation and support organisations to proactively strengthen their cyber posture."

Also at the event was Head of Cyber Consulting, Kieran Fowler, who attributes the win to the array of opportunities for support offered by the business. He said: "Cyber crime is on the rise and we're on a mission to reduce its impact on the economy.

“We now offer a 24/7 Security Operations Centre for all our clients to make sure they are protected around the clock, but also work with businesses on strategies, accreditations and even ethical hacking to truly understand the measures needed.”

Head of Cyber Assurance, Craig Archdeacon is the creator of one of our more innovative methods to teach the world about cyber security and business resilience, through the newly launched resilience board game, Udder Disaster. Which will be available in Australia in 2023.

The team in Australia want to extend our warmest congratulations to the entire team.
