Award-Winning Dedication: Waterstons Shines with Business in NSW and Cyber Daily Nominations

We are thrilled to have been shortlisted at not one but two awards in 2024.

We are thrilled to have been shortlisted at not one but two awards in 2024.

Business in NSW, Regional Finalist Innovation Award - Udder Disaster (Cyber security table top game)

Cyber Daily, Australian Cyber Security Award, Finalist SOC - SOC Provider of The Year Award

Our whole team works diligently and passionately to create solutions that help organisations thrive. Seeing our hard work, dedication, and passion recognised is really special for us.

Waterstons has been in Australia for just over four years and in the UK for more than 30 years. Being recognised so quickly in Australia shows just how much impact we're having on our clients and their businesses.

The award ceremonies are happening this June, and some of our team will be there to connect with other nominees and, hopefully, collect our award if we're lucky enough to win.

We want to say a big thank you to Business in NSW and Cyber Daily for acknowledging our efforts. We also congratulate the other fantastic finalists. We wish them all the best of luck in their categories!

And, of course, a huge congratulations to our internal teams. Without your commitment, none of this would be possible.
